

Please replace page 120 of the specification with substitute pages 121-160 filed herewith. Please renumber pages 121-127 as pages 161-167 containing the claims and renumber page 128 as page 168 containing the abstract.

REMARKS

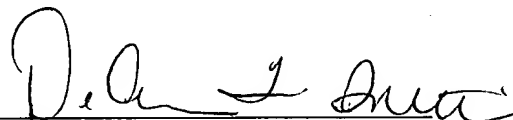

In accordance with 37 C.F.R. 1.821, applicant submits herewith substitute pages 121-160 which contain a Sequence Listing for the above-referenced application. Applicant has also amended the specification to include substitute pages 121-160.

In addition, Applicant has submitted on even date herewith a computer-readable form (diskette) of this sequence which is identical in substance to the Sequence Listing on pages 121-160 submitted herewith.

Support for the amendments can be found throughout the specification and claims, in particular, in the Figures, as originally-filed. No new matter has been added to the application. Accordingly, as the above amendments do not affect the issue of patentability, it is respectfully requested that they be entered.

Respectfully submitted,

LAHIVE & COCKFIELD, LLP
